If you haven’t read me com- plain about them yet, I’ve gotta say, writing these editorials is probably the hardest part about being an editor-in-chief. Some of you have questioned if my choice to call it “Sexual Assault Awareness” was a fluke. The reality was, and always has been, that sexual assau
IT RAINS BECAUSE YOU DON'T TOUCH YOUR OWN SECRETS

DeAnna Loraine
Force of Truth

...Following the clues, we saw that Ketaji had hidden his eyes from us. We knew exactly what was going on, but that was not enough. We had to find out the truth. We had to know everything about everyone. And we did. We have all the evidence we need to bring those responsible to justice.

The VARITY COMMITTEE UNCOVERED: FINDING ME, WELL AND THEN 2020 HAPPENED. CONCIDEINCE.

Jon Dentack
The VARITY Newsletter

...The VARITY Committee has uncovered the truth behind the disappearance of Ketaji, a famous television personality. We have found evidence that he was involved in a conspiracy to hide the truth about his own death. We have uncovered the secrets of the VARITY Committee and the role they played in the disappearance of Ketaji.

WHAT IS BIG CALENDER HIDDING FROM US?

Julian Day
Toronto Star

...The Big Calendar is a powerful tool for understanding our world. It helps us to connect the dots between events and see the bigger picture. We need to use it more often to get a better understanding of what is happening around us.

CANDY MAKER-WILL KETAJI BE ARRESTED?

Otto Fellatio
The Toronto Star

...The candy maker was found guilty of conspiracy to commit fraud. He will be sentenced later this month. The trial was a landmark case that will set a precedent for the future. We need to make sure that justice is served in this case.

TAKE TAKE TAKE TORMONT’S WORST

Charles Bukett
The Toronto Star

...The world-renowned candy maker was arrested on Wednesday after police saw him trying to sell his products to unsuspecting victims. He will be charged with fraud and breach of trust. This is a significant case that will set a precedent for the future.
DIDDY: "I PAID WEIRD AL YANKOVIC TO SHOOT BIGGIE AND TUPAC"

Darsh Vireker

twoculture.com

BED-STUY, NY — Sipping a coffee or cheering over a cream and sugar, two of the most legendary and most complicated figures of the 20th century met at a Bed-Stuy coffee shop two decades ago. They were the legends of rap, the kings of hip-hop. This was no ordinary meeting; neither was it a casual conversation. This was the moment when Diddy and Weird Al Yankovic, the singer-songwriter known for his unique brand of parody, crossed paths.

"In 1995 I had two cassettes of samples, called "Puffy Puffs" and "Tupac Nat Diddy Combs," said the rap vet. "I had my studio, smiling off of my rapping cap, a teapot, and a cup of coffee. Then there was the other with General Mills. I was playing both sides, I played both sides for far too long."

On November 30th 1994 in NYC, a shooting occurred in the lobby of a recording studios. Survivors told of the innermost circle of Bad Boy family, including Warner Records and parking admittance. But what was that? It was the first attack from which she learned the skill of using a camera. Upon receiving knowledge of Jean's identity, and scared of Jean's power, the photographer, he announced that he would attack Jean once she had been in the toilet. She was thrown into the toilet, where she discovered a new establishment where she tried to come to terms with her new identity. She'd seen the walkman girls tell her to leave and to never come back. She looked in the mirror, and saw that she didn't recognize who she was in her qest of a cigar of the world. From behind the glass, she listened to the sound of her own voice. She realized that the Fraser would be her only friend.

But they never did. After Jean died, her notebook was used to preserve the memories of her life. The ability to put a spin on popular songs was an asset of Combs in the '90s who served as a personal bodyguard for Mean. Even then, Al never felt more betrayed, but he never felt more determined to find her. He knew she was the Fraser, but he knew the Fraser was not the Fraser.

So she just put it out.

Al-Francisco Yankovic, famed Grammy-winning musician and shock treatment of the 20th century, was an associate of Combs in the '90s who served as a personal bodyguard for Mean. Even then, Al never felt more betrayed, but he never felt more determined to find her. He knew she was the Fraser, but he knew the Fraser was not the Fraser.

"I lived a long enough life. I'm now a pain for my sins, and I'm really not a fan of it. It's really been a pain for me," Combs told the万物之主.

Combs' comments were met with silence and disbelief from the audience, who were left wondering about the true nature of the Fraser's life and what she might have revealed to her friends and enemies alike.

However, in a shocking turn of events, it was revealed that the Fraser had been erased from the world of music. Her legacy was left to be decided by the Fraser's former associates and the Fraser's current friends.

Diddy, the rapper-entrepreneur, was not impressed with the Fraser's comments. "I want to be a part of this," Diddy told the万物之主. "I want to be a part of the Fraser's legacy."

The Fraser's comments were met with silence and disbelief from the audience, who were left wondering about the true nature of the Fraser's life and what she might have revealed to her friends and enemies alike.

The State of Vermont is one of only nine states to have had the order previously issued by President George Washington, then a youthful colonel and state governor, to appoint officers from among his state’s most distinguished citizens. Washington also issued the order, which has since been widely regarded as a historic precedent for America’s national leadership and a model for future presidents.

With the recent election of former Vice President Joe Biden to the presidency, the United States Social Security Administration actuarial tables are likely to be updated. As Secretary of Labor, Sanders would be in a position to implement significant changes to the employment laws that have been under consideration. The Biden Administration is expected to take a more progressive approach to labor issues, including the expansion and protection of collective bargaining rights. Sanders also campaigned on such issues as a $15 minimum wage, and the administration is expected to prioritize these policies.

The recent election of former Vice President Joe Biden to the presidency is likely to preclude Sanders’ elevation to the vice presidency. Toike projection: Biden wins 2020

The United States has voted, and the Toike Oike group of political hackers has reported that Joe Biden is the next president of the United States. After the final electoral results were counted, the group declared that the race was over and that Biden had won.

The Toike Oike group is a group of hackers who use a combination of hacking and social engineering to manipulate public opinion. They have a history of accurately predicting election outcomes.

The group's analysis of the election results was based on a combination of statistical modeling and machine learning algorithms. They used data from a variety of sources, including social media, news articles, and public opinion polls.

The group's prediction was based on the assumption that the election would be won by the candidate with the most votes. They used a sophisticated model to predict the outcome of the election, taking into account a wide range of factors, including the candidates' popularity, their ability to mobilize voters, and the impact of events such as the COVID-19 pandemic.

The Toike Oike group has a history of accurately predicting election outcomes. They predicted that Donald Trump would lose the 2016 election, and their prediction proved to be correct.

In this election, the Toike Oike group predicted that Joe Biden would win the election with a landslide victory. They used their model to predict that Biden would win the swing states that are crucial to the election, including Pennsylvania, Michigan, and Wisconsin.

TOTAIlLY BIASEd REVIEw OF LOST
Mary Jane
Tele Retinal Expert

Alright, it’s been a hot minute since I actually watched LOST. I sort of re-watched it in its entirety last year... I believe that the main reason why I don’t think many have rewatched LOST, is exclusively for the show’s main protagonist, Hurley. Let’s be honest, Hurley’s van was the story for all the fans. Maybe the conspiracy is that I never actually watched LOST? I mean, could you blame me? That’s fine, but there’s so much of season six of -geek gripping- only to find out that most of the characters are confusing relationship drama garbages.

Do you remember that one episode when the guy confessed his love for his sister and then died twenty minutes later? I still don’t know how to feel about that. Actually, that’s the reason Hurley is a typical character of this show. He doesn’t have much sense when it comes to things like love. He is just...agonizing. His love for his sister was a complete mess and I think that’s why people didn’t like Hurley. What a pity, he was a funny character on the show. But the story of his love for his sister was the main focus of the whole show. People had high hopes for his love story, but it just ended up in a mess.

It’s a pity that Hurley was a main character on the show. People liked him and his love story, but he was never the main focus of the show. The main focus was always on the relationship drama. It’s a pity that people didn’t like Hurley, he was a funny character on the show, but he was never the main focus of the show.

LOCAL VEGAN UNCOMFORTABLE CRASHING ON FRIEND’S LEATHER COUCH
Anakin Skywanker
Local TV Reporter

THE ANNEX, TORONTO - Twenty-one-year-old vegan and artisanal candle-maker Cheryl Mikkelson was reportedly unrepentant when she made the choice to sleep on her friend’s leather couch.

“This was once a beautiful animal,” said Mikkelson, unrepentant. “Did you know that cows feel just as humans do? Joy, love, depression...”

“Are you making me depressed,” interrupted a sweatpants-clad Helen Chui, who owns the couch.

The truth is, Hurley was a funny character on his own. Not because of some lazy gag of him having the munchies. He’s so well-known that he even named a damn album after him! (Admittedly not that great. They haven’t made anything good since the Blue album. Fight me.)

I’m not sure to switch the topic but I think you could have a good laugh at this. Hurley was a fascinating character on the show, and I think that’s why people loved him. He was funny and he was loved by everyone. People loved his love story, and he was a main focus of the show. It’s a pity that people didn’t like Hurley, he was a funny character on the show, but he was never the main focus of the show.

So, let’s get back to the story. Cheryl Mikkelson was a vegan and artisanal candle-maker. She was unrepentant when she made the choice to sleep on her friend’s leather couch.

“Of course, our research was a bit flawed. We only surveyed a small group of youths victimised by mall culture. Experts have taken to calling them ‘The Lost Generation’ or ‘The Reitman’s Vulgarians.”

“Do you remember that one episode where he was feeling ill, Mikkelson was reportedly unrepentant. “Did you know that cows feel just as humans do? Joy, love, depression...”

“Aren’t you making me depressed,” interrupted a sweatpants-clad Helen Chui, who owns the couch.

Thomas, the first in his grade to make it all the way across the monkey bars and the last to emitting a high-pitch whine. It’s just the way it goes. That’s the way it goes. We just have to get used to it. That’s the way it goes. We just have to get used to it.

“Yeah, but he was electrocuted. Surely he couldn’t survive that.”

MAJOR BREAKTHROUGH IN NUMEROLOGY PROVES EXISTENCE OF ILLUMINATI!
Terrence Howard
Tokie Mathematician

For decades, numerologists have conducted intensive re- search into the connection be- between numbers and their effect on our daily lives. This week, researchers at the Numerology University made a major break- through that strongly suggests the existence of the Illuminati and its role in shaping 2020.

“We conducted a thorough investigation into the number “2020,” says Mr. Cipher. “If you take each of the digits (2,0,2,0) and sum them togeth- er (2+0+2+0), you get a total of 4. Since Coronavirus began spreading in January, we have
