Mandatary French content

Bonne année, à tous les membres du Toike kanada.
Avant de commencer, je me fais plaisir à dire que Toike ne contient pas de matériel à propos du Saint-Valentin, car (et en collaborant au Galon du Saint-Valentin) et on a choisi de concentrer notre énergie sur quelque chose qui est plus important en cette période du mois fécond.

Si, car on est aussi célibataire et sans parler du fait que nous sommes tous des félin de coeurs qui ne parlent pas le français, car il n'y a rien de plus passionnant que de l'habiter loin de chez nous.

On peut commencer avec Sweeney, qui a eu le don de la permettre d'écriture dans les mots français mais qui n'est pas capable de comprendre ce que je veux dire. Comme résultat, il se lie à être libre à cette lettre. L’intellect de notre John Sweeney est – et je veux dire – à être génial – complètement microïde. Hiiiihhhh.

Okay, avant de finir, c'est à propos de la communication de l'histoire que vous lisez dans cet édito. On est conscient de ce que nous faisons, mais expliquez à vos amis uniques agnostique que vous vous êtes déplacés sur les gens qui ne savent pas. Vous avez une belle vie pour vrai, vous savez, comme un pépin. Ce va

Samantha Étés
Écriture superbement excellente à laquelle Sweeney doit sa vie

COLOPHON

Le Toike Oike est un magazine qui a une double fonction. Il est une publication qui est laissée dans les mains de ses lecteurs, il est également un récit du roman qui est écrit pour ceux qui ne savent pas. Vous avez une belle vie pour vrai, vous savez, comme un pépin.

LE LUNDI 23 MARS 2015

La lettre a été prévue pour un petit moment pour nous montrer que vous vous êtes déplacés sans un doute qui ne parle pas le français, car il n'y a rien de plus passionnant que de l'habiter loin de chez nous.
News Briefs

City Councillors Vote to Remove Second “I” in Winnipeg

Canada’s largest city will be receiving a slight overhaul next year as the famous name change will be officially changed to “Winnipeg.” For years, Torontonians have been known nationwide for being huge sports fans and for being able to shout their name from the rooftops. Completely forgetting what the original name of the city was supposed to be.

Despite the threat of arrest, Canadian residents are already finding ways to illegally eat beaver. One Oshawa dam was found to be serving beer for the beaver burrow and beavers are known to love a “beer.”

A self-professed group of “cunning” men in the province are selling beaver shells for a steep price. One Oshawa man, Michael Donahue is confident saying, “I have more than enough to feed me until spring.”

Scientists Discover that it’s Literally Too Cold to be Sober in Winnipeg

The Canadian political system was about fast Friday with the news of the unexpected coup, at the time, uncertainty riddled the Liberal and Party leader Justin Trudeau. Trudeau was last seen prior to his disappearance in the passenger jet. It is reported that the man was seen shaven wearing a chequered shirt while phoning his mother after closing his door and driving away. Sources add that the man has not been seen and a few weeks back the ASAC released an inflammatory YouTube video that quickly went viral, exposing the dangers on “bracking,” the mechanical process by which the beaver will be extracted from the sands.

Sober in Winnipeg

Scientists Discover that it’s literally too cold to be sober in Winnipeg. The Royal Family with the right to the throne was caused by a man named Michael Donahue.

The by-election was won by a man named Michael Donahue and his party leader Justin Trudeau. Trudeau was last seen prior to his disappearance in the passenger jet. It is reported that the man was seen shaven wearing a chequered shirt while phoning his mother after closing his door and driving away. Sources add that the man has not been seen and a few weeks back the ASAC released an inflammatory YouTube video that quickly went viral, exposing the dangers on “bracking,” the mechanical process by which the beaver will be extracted from the sands.

The Liberal people were standing on a hillside, looking at the man's house and discussing the situation. They were trying to decide what to do next, as the situation was becoming more and more critical.

The Holy Bible - Fully paraphrased for your convenience

Old Testament

Joshua

It was a very clear night in Jerusalem and the moon was full. The sky was ablaze with stars, and the air was filled with the sweet scent of orange blossom. Joshua was on his way to the town of Beersheba, where he heard that the Philistines had captured two of his closest friends, Simeon and Levi. Joshua was determined to rescue his friends, and he set out on his journey at once.

Job

In the book of Job, the story of a pious man named Job, who had a family and many possessions, is told. Job was a man of great faith, and he faced many trials and tribulations. He lost his family and his possessions, but he never lost his faith in God. His story is about the struggle between humanity and the forces of evil, and it is a story of hope and faith.

The Holy Bible finished a pretty decent story with a pretty decent ending. Joshua was able to save his friends, and he returned home to Jerusalem, where he was welcomed as a hero. His story is a testament to the power of faith and the strength of the human spirit.
The Great Canadian Drinking Game

**Rules:**

- **Calmly determine who goes first and turn order.**
- In reverse turn order, choose your starting province/territory and perform the assigned challenge. I know that's confusing but trust us it's fair. No two players may start on the same space; use unique coins or other markers to keep track of where you are.
- Start. Each turn a player must move ONCE along an arrow to an adjacent province/territory and perform the corresponding challenge. No skipping your turn.
- Write your name on the provinces/territories you've visited to keep score. The first player to visit every province and territory wins the game.

**THE CANADIAN TWIST:**

If a player enters an already occupied province/territory, all players in that province/territory (including the new player) must apologize to each other and finish their drinks immediately. This happens before the challenge is performed.

Play at your own risk. Play with a friend, and remember, our lawyers are already overworked as it is.

- **Yukon:**
  - Gold rush! Open a second beer. Whenever you have to drink, you must drink the same amount from the second beer.

- **Northwest Territories:**
  - Snow blindness! Eyes must be closed while in this territory. Any time you have your eyes open you must also be drinking.

- **Nunavut:**
  - Ice floes! Take a drink and flip a coin. If heads, you land ashore and may move normally next turn. If tails, you must take a second drink for warmth and repeat this challenge next turn as you are stranded at sea.

- **British Columbia:**
  - Mountain love! Choose another player and offer to finish their beer. They may refuse. Remain standing until you leave BC because you are so high.

- **Alberta:**
  - Export! Pour the rest of your beer into other people's beers in whatever portions you choose. But if you spill even one drop, you must open a fresh beer and chug it as an environmental damage fee.

- **Saskatchewan:**
  - Nothing to do here.

- **Manitoba:**
  - Accents! While you are here, if anyone catches you not finishing a sentence with "eh?", take two drinks. Only take one if you are wearing flannel.

- **Ontario:**
  - Everything is your fault! While you are here, everytime someone else has to drink, take a drink.

- **Quebec:**
  - Separate! Sit at another table while you are here and take a drink every time it's someone else's turn out of spite.

- **Newfoundland:**
  - Maritime pride! Take a drink for every person in Newfoundland, PEI, Nova Scotia, and New Brunswick.

- **New Brunswick:**
  - Out for a rip! You and everyone drinking the same brand of beer take a drink.

- **Nova Scotia:**
  - Beer buddies! Check to see who's in Newfoundland, they are now your buddy. Each time they drink, you drink, for the rest of the game. If there's nobody there, you're off the hook. If multiple people are, they're all your buddy.

- **British Columbia:**
  - Mountain love! Choose another player and offer to finish their beer. They may refuse. Remain standing until you leave BC because you are so high.

- **Alberta:**
  - Export! Pour the rest of your beer into other people's beers in whatever portions you choose. But if you spill even one drop, you must open a fresh beer and chug it as an environmental damage fee.

- **Saskatchewan:**
  - Nothing to do here.

- **Manitoba:**

As A Canadian

Jack Riley

The Ice Storm

Feeling confused. I went to the bar with my girlfriend the other night and ended up going home alone after she found me slub. I don’t even know why she’s still married to me.

What’s it all about? This is the kind of research that you can find yourself dreaming up China in that god damn shithole, but there’s barely heat enough to make sure that you don’t get yourself cold in the dead of winter, which is why you find yourself dreaming up China in that dead of winter.

That’s right, the blender. The blender is easily the most used and滥用 kitchen appliance. According to a poll conducted by Statistics Canada, the blender is the kitchen appliance that is used the most in Canadian households. It’s not uncommon to see a blender sitting on a kitchen counter, or even in the middle of a table, ready to be used.

But why are blenders so popular? There are a few reasons. For one, the blender is a versatile tool. It can be used to make smoothies, soups, sauces, and even milkshakes. It’s also easy to use and clean.

However, despite their popularity, blenders can be dangerous. In fact, the Canadian Association of Poison Control Centres has reported that blenders are responsible for a significant number of injuries each year.

For example, in 2018, the association reported that over 3,500 people were treated in emergency departments for injuries related to blenders. Of those injuries, over 2,000 were due to the sharp blades of the blender, which can cause severe cuts and even amputations.

In addition to injuries, blenders can also cause problems for the environment. Many blenders are made from plastic, which is not biodegradable and can take hundreds of years to break down.

So what can we do to prevent blender-related injuries and reduce their environmental impact? One option is to invest in a blender that has a safety guard, which can help prevent blades from accidentally coming into contact with your skin. Another option is to use a blender that is made from more sustainable materials, such as glass or stainless steel.

In the end, it’s up to us to be responsible when it comes to using blenders. By following safety guidelines and using blenders made from more sustainable materials, we can reduce the risk of injuries and help protect the environment.
**The SKULE Songbook**

In light of the recent scandal at McMaster University, the Toike Oike has decided to come clean and release the full version of U of T Engineering’s songbook.

**DISCLAIMER:** We must warn: there is no good place to sing these. People will be offended. Proceed with caution.

The text that follows is original sized for a reason. If you are willing to read it, you might just have as much fun as we did writing it. Bitches.

---

**The Culinary Chef**

Who can take a cheese grater?
Who can take a cheese grater?
Put it on his arm
And give his hand some cheese
The Culinary Chef, O The Culinary Chef cause he misses it
with spice and makes the food taste good, the food taste good.

More Verses

1. Who can take a hammer? 
Wave it overhead
Use to knead dough so he can bake some bread
2. Who can go to an abortion clinic? 
Snack around the back
And give a homeless man a pack of crackers
3. Who can find a homeless man?
Screw around the back
Who can go to an abortion clinic?
4. Who can take a chainsaw?
Wave it overhead
Who can find a homeless man?
5. Who can take the pope?
Use it to knead dough so he can bake some bread
Who can take a hammer?
6. Who can take a puppy?
Wave it overhead
Who can take the pope?
7. Who can take a hammer?
Use it to knead dough so he can bake some bread
Who can take a chainsaw?
8. Who can take a plywood?
Wave it overhead
Who can find a homeless man?
9. Who can take a chainsaw?
Wave it overhead
Who can find a homeless man?
10. Who can work at a kindergarten?
Rounds up all the kids
Who can take a plywood?
